Next the pages will show the table with:

VALUE The value of the pokes for inventory editor that you carry

ITEM NAME When you pick item up and its name will display

STORAGE Item might found on the floor or in the storage

ROOM Name of the room where the item found in

FLOOR Name of the floor after the monster lives except the Attic and Cellar

NOTE Understand about item could be useful or can you solve item?

About the Value Codes

You can change your carrying items with your choice item by using the value in the addresses below:

1st Inventory Carry (most important for carry first item)

&6742 2nd Inventory Carry

&6743 3rd Inventory Carry

If you put values in 2nd or 3rd address WITHOUT 1st address, but that will not working. First address is always important for carrying first item before you can add items in 2nd and 3rd.

Colour Rows

BLUE Empty inventory carrying

WHITE Found item but it hasn't tested or solved yet.

GREEN Item has been solved.

ORANGE One of Dr Scrimes' Quest Item and have been solved.

YELLOW NPC only where you cannot pick but you can use it with something

(e.g. cooker, power-saw, tap).

LIGHT BLUE One of Dr Scrimes' Quest Item but not solved yet.

RED DO NOT USE VALUE or YOUR GAME WILL MESS / CRASHED!

GREY Item from unknown location unless you found it.

PINK Item has made from ingredients, but item has not solved yet.
