1. Introduction

Fedora Adventures is an Amstrad CPC game, made only by three people.

Fedora adventures is a platform game in which your purpose is to jump from platform to platform until you get your precious rainbow diamond to escape from the archaeological ruins.

2. System requirements

To play Fedora Adventures you need in your computer an emulator of Amstrad CPC like WinApe or RetroVirtualMachine (RVM).

You can play Fedora Adventures in your Amstrad CPC 464 too.

3. Load instructions

WinAPE

1. Execute WinAPE.
2. Load the snapshot: Press F5 and select the snapshot.
3. Get the diamond!

Amstrad CPC 464

1. Insert the cassette.
2. Type RUN" and press ENTER.
3. Press PLAY at the cassette unit.
4. Press any key.
5. Wait until the game has fully loaded.
6. Get the diamond!

4.How to play

Game objective:

Run and jump over the platforms, get the diamond to get the door open and then go through it to complete the level. The player will die if he falls into the pit at the bottom of level.
