

HA, KER SLAYER !

Slayer, ou le Haker vu par les Prédators. Cinq petits kilos de binaire bien tassés sur une disquette, et vous voilà comme un roi trônant sur les secteurs de la jungle CPC. Pour ceux qui veulent des points sur les i, Slayer est un superbe utilitaire de disc.

Le premier listing, crée le fichier binaire "SLAYER.", qui servira de lanceur aux deux autres. Ceux-ci créeront respectivement "SLAYER.001" et "SLAYER.002". Pour les disquettes, aucun problème à signaler. Par contre, possesseur de 464, attention ! Slayer travaille sur les deux modules "SLAYER.001" et "SLAYER.002", selon le mode choisi dans le menu. Alors, pour une plus grande facilité d'emploi, utilisez trois cassettes, chacune avec le résultat généré par les trois listings qui suivent.

Pour le lancement, préparez votre verre de Coca, puis

```
LOAD"SLAYER.":CALL &BE80.
```

Lors des accès disc, le nom des fichiers doit être entré en majuscule, puis remplir le reste par des espaces. Le retour chariot est automatique.

Slayer qui barbine

```
